Type Tarzan

A RACING GAME BY TYPING SPEED

Mohammad Sayeem khan
PROGRAMMING IN PYTHON [C] | 22-49767-3

1. Project Overview

TypeTarzan is a game made with the python library “pygame”. The player competes against a computer in a typing speed competition with their car.

2. Track & External Library

Item	Detail
Track	Track 1: Game (Pygame)
External Library	pygame 2.6.1
Language	Python 3
Storage	JSON (data/scores.json)

3. Setup & Run Instructions

3.1 Environment Setup

Step 1: Create virtual environment:

```
python -m venv .venv
```

Step 2: Activate virtual environment:

```
.venv\scripts\activate (windows)
source .venv/bin/activate (mac/linux)
```

Step 3: Install dependencies:

```
pip install -r requirements.txt
```

Step 4: Run the game:

```
python main.py
```

3.2 requirements.txt

```
pygame==2.6.1
```

4. Features

4.1 Gameplay

Player needs to type out the text at bottom as fast as they can to win, their typing speed will determine their cars speed

Correct words are indicated by green texts while red is for incrorrect. A live WPM counter will update the players typing speed constantly. The one who reaches the finish line first will win.
